TECHNICAL DATA SHEET

Single Capstan Winch PLT 1.6 EXT

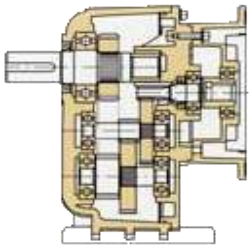

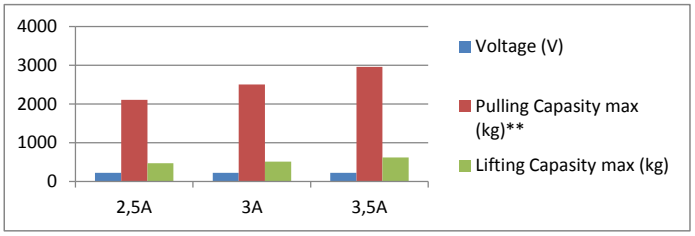

KEY FEATURE :

-Portable and easy to use
-low voltage,can be used with regular eletriity
- Safety priority, with chain lock and rope lock
- Single phase 220-230V/5A
- IP55
- With electronic digital controller system
- With 2-way capstan rotation on demand*
- weight 46kg

Electrical current comparation with capasity of lifting (min:double layers)

Current (A)	*2,5A*	*3A*	*3,5A*
Voltage (V)	*220*	*220*	*220*
Pulling Capasity max (kg)**	*2110*	*2500*	*2960*
Lifting Capasity max (kg)	*470*	*510*	*620*

Mechanical spec :
- baseframe can be modified as request, min tickness 6mm
- made of hard steel coated by paint
- 2 meters long of chain lock with max load of 4000 lbs
- capstan wich 18cm diameter made of steel covered by hard crhome
- extra rope lock for more safety of work

note :

2 way capstan rotation with replacement of switch

****pulling load horizontally with minimum friction***
